Regulatory Manager (5/10/10)

We are currently conducting a search for a Regulatory Manager on behalf of a medical device (IVD kits) company based in Pennsylvania. Not sure if you might know someone but I thought it couldn't hurt to ask.

A bit about the company:

- * Globally recognized company in the IVD market
- * Financially stable (\$80MM revenues)
- * Strong pipeline of products

REQUIREMENTS:

- * Minimum 5 years of experience in Regulatory Affairs or Quality Assurance in the drug manufacturing, medical device or biologics industry
- * Minimum 2 years of supervisory experience
- * Proven expertise in regulatory submissions (i.e. BPDR, MDR, facility registrations, IND, 510k)
- * Bachelor's/Undergraduate degree in Quality or Science (Chemistry, Biology or Medical Technology)

Interested applicants can forward their resume (MS Word Format only, please) to Judy and she will put them in touch with the hiring manager.
